Born in 1978 as Derivados de la Pintura S.A.

In 1993, a new, young management team buys the company as Pintados y Derivados S.L. "PINTER"

The company goes from 980 m² to its current 7500-8000 m².

Specialized in powder coatings and liquid paint, Pinter is the Catalanian market leader with more than 17 million pieces per year: that's about 850 m² per day.

- In-house services: Sandblasting, Dracomat, Deltatone, Pre-Assembly, and Assembly.***
- External services and negotiation for Cataphoresis, Mechanical Plating, and Serigraphy. We boost production and cut down costs.***

5 loading docks equipped with 5 forklift trucks in commission and 2 more in stock are used by credited professionals specialized in transportation, reception, and dispatch logistics to process merchandises from our clients and suppliers: according to a survey of transporters, our logistics department gets an 8.2 out of 10 satisfaction value.

LOGISTICS AND TRANSPORTATION

All of our spacious warehouses for raw materials and various merchandises follow every rule of a top-class, fully controlled storage facility. Using FIFO's guidelines, we've established a full traceable system to control any merchandise entry, production, and dispatch.

LOGISTICS AND STORAGE AREAS

"Building one"

24-hour production.

Capacity for 750x1500x3500 mm pieces.

"Building three"

Support facilities and static furnaces used to paint bigger pieces.

Max. Capacity: 1600x2000x4000 mm.

PRODUCTION FACILITIES AND POWDER PAINTING APPLICATION SUPPORT

"Building two"

The NANO CERAMIC System allows us to increase adherence up 50% and provides a 700-100 saline mist chamber support for mint condition aluminum and iron pieces in relation to current traditional coating systems. Following the current needs of big automotive companies, our SA 2.5 iron and corindon ball automatic sandblasting allows us to provide a new special service for our clients.

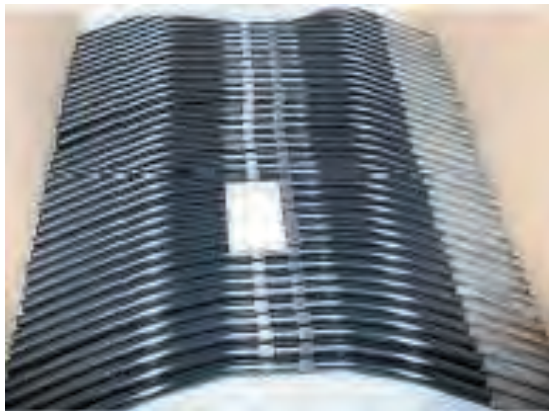

*Piece capacity:
600x1300x2200.*

We use the newest, most sophisticated ecological and environmentally friendly pre-treatments.

Jordi Pujol visitó la empresa Pintados y Derivados (Pinter)

El ex presidente de la Generalitat Jordi Pujol visitó Pintados y Derivados (Pinter), empresa de Barberá. Pujol, acompañado por Carlos Rodríguez, gerente de Pinter, mantuvo una reunión con los directivos de la empresa, firmó en el libro de honor y recorrió las dos plantas de producción, interesándose por su funcionamiento y la actividad que lleva a cabo. Pinter, fundada en 1978, está especializada en el tratamiento y recubrimiento de superficies mediante pintura líquida y en polvo. Factura 7 millones de euros (2009) y emplea a 90 trabajadores. En el periodo 2009-2010, invertirá 250.000 euros en nueva maquinaria y la modernización de instalaciones.

WE HAVE A YOUNG, CHEERFUL, PROFESSIONAL TEAM

Dear client, supplier, or friend:

Thank you very much for giving us your precious time.

Our only goal is for you to know us better, who we are, and what do we do.
You and your Company are of the utmost importance for all of us.

We hope you find this updated memo useful for your business. We remain
at your complete disposal. If you so choose, we'll be more than happy to
welcome you for a visit in our Pinter facilities.

Kindest Regards.

Pintados y Derivados s.l. "Pinter"

Always open to you and your company
